A WELCOME SIGHT for Sixth and Seventh Street residents during the past weeks is the green asphalt-mix spreading machine as it covered once dusty streets

with black topping. Paving along Sixth St. was nearing completion this week when rain again slowed the City's paving program.

## Cameron Seaman Survives Collision

### Epperson Among Destroyer Crew

A Navy enlisted man from Cameron is one of the survivors of a disaster in the China Sea that took the lives of 73 men.

Dan Epperson, grandson of Mrs. Owen Epperson of Cameron, was rescued from the USS Frank E. Evans after it was cut in half by an Australian aircraft carrier early Tuesday in the China Sea.

A telegram from Epperson notified his wife in California that he was safe aboard the USS Kearsarge after being rescued from the Evans.

A Navy report said the Australian aircraft carrier Melbourne collided with the destroyer USS Evans cutting the Evans in half. The severed forward section, with 73 men presumed asleep in their bunks, sank into the sea in less than two minutes.

Epperson and other crewmen who were in the aft section were first taken aboard the Melbourne and later transferred to the Kearsarge.

Epperson had been a dispensing clerk aboard the Evans since November. He graduated from Yoe High School in 1966, attended Sam Houston State for two years and enlisted in the Navy in May 1967.

The Evans was taking part in exercise "Sea Spirit" along with

some 40 warships of six Southeast Asia Treaty Organization nations.

The Navy said both the Evans and the Melbourne were equipped with radar, the weather clear and seas calm. They said the 376-foot destroyer was escorting the 705-foot Australian carrier as it took on planes when the accident happened.

### Buckholts Rites

#### For John Meyer

John William Meyer of Buckholts died Friday at 1:40 a.m. in a Temple nursing home after a long illness.

He was born and reared in Buckholts and was in the retail grocery business in Buckholts with his brother-in-law, J. R. Slovacek. He retired from business in 1957.

Funeral services were held at 2 p.m. Saturday at the Buckholts Brethren Church, the Rev. John W. Baletka officiating. Burial was in Bellwood Memorial Park, Temple.

Survivors include his wife, Mrs. Vivian Ritchie Meyer; a daughter, Mrs. Genevieve Landry of New Orleans, La.; a son, John Ritchie Meyer of Dallas; two sisters, Mrs. Matilda Slovacek and Miss Emma Meyer, both of Buckholts; a brother, Otto Meyer of Cameron; and a grandson, John William Meyer of Dallas.

Pallbearers were Marvin Slovacek, Emil Rubac, Otto Kamenicky, Alvin Meyer, Buford McMillon and Raymond Wall.

Marck-Burns Funeral Home was in charge of arrangements.

### LOST COCKATOO SOUGHT IN CITY

Have you seen a cockatoo lately? One is missing from a Cameron home to the dismay and sorrow of its owner.

Named Bobby, the bird is grey with yellow markings, and specializes in whistling "Put your little foot" in front of mirrors. It can also give a wolf whistle.

The cockatoo belongs to Mrs. Fannie Kennon of 409 West 6th, who has been ill and is now at the home of her daughter. She does not know how long the bird has been gone -- perhaps one or two weeks.

Anyone spotting the exotic bird is asked to contact Mrs. Jim Short, 697-3079.

### Attempted Burglary

#### Foiled At Buckholts

Three men are in Milam County jail charged with attempted burglary after Sheriff Carl Black caught them breaking into the John Svetlik Store in Buckholts.

The Sheriff said Svetlik became suspicious of the men when they appeared to be "casing" the store on Thursday evening.

Sheriff Black arrested the men at about 11 p.m. as they were trying to force open the back door of the store. The screen had been cut in the door and the men were using screwdrivers to force a lock, Black said.

One of the men is from Louisiana and the other two are local men, the Sheriff said.

### \$3800 ADDED TO HOSPITAL FUND

The drive for St. Edward Hospital Development Fund officially came to a close over the weekend with a charity dance Saturday and an open house at the hospital on Sunday.

Over \$3800 was raised for the hospital at the Three Arts Club sponsored dance and another \$3,600 pledged by individuals at the hospital open house.

Master Kostka, hospital administrator, said bids were out on construction of the \$1 million hospital and will be opened July 10.

### Sewing Workshop For Adults Offered

The Homemaking teachers of Yoe High School will have a clothing construction workshop for adults June 10 through June 22 at the school homemaking department.

Group work will be offered for either beginners or advanced. Mrs. Alice Hughes said the program was flexible and the workshop hours would be geared to the needs of adults who enroll.

Mrs. Hughes said anyone interested should come by the department Fri., June 6, or call either 697-3106 or 697-3385.

### Committee Aids Senior Citizens

County officials estimate that 14 percent of the county population is in the "senior citizen" age bracket. Their interests, abilities, and finances vary about as much as people in the other age groups. The common tie seems to be a surplus of time.

The Milam County Committee on Aging is in its fourth year of programs aimed at adding another dimension to the senior citizens life. Principal sponsors are the extension service through home demonstration clubs.

Miss Christine Laws, home demonstration agent, said response to programs in most cases has been good. "We have had programs such as drivers re-education, crafts and meal planning. We have also had entertainment type programs with skits, games and door prizes," Miss Laws said.

Probably the most highly rated activity has been the personal contact through IID clubs. "Some communities have an informal checking service to make sure senior citizens are all right," Miss Laws said. "They also provided transportation and other help when needed."

Members of the Milam County Committee on Aging are: Mrs. Joe Brown, Rockdale, Mrs. Lloyd McMeer, Mrs. Wavy Charles, Mrs. J. B. Sapp, Mrs. W. A. Skinner, Mrs. Hinton Pruitt, Mrs. J. H. Angell, Mrs. R. H. Umbee, Mrs. Ira Terrell, Mrs. George Young, Sr., Mr. W. S. Turner, and Porter Young.

### Head Start Classes Begin Here Monday

Head Start and remedial first grade classes will begin Monday morning at O. J. Thomas School. Classes will be from 8 a.m. until 12 noon and will continue for eight weeks. Mrs. Gloria Perkins, director of the summer program, said that 72 children have enrolled for Head Start.

Children enrolled in the classes are asked to report, with their parents, at O. J. Thomas School at 8 Monday morning.

# 110

By F. M. L.

People believe us now when we say Cameron is going to boom.

Look what young Yoe Coach Hal Stanislaw came up with in a summer rec program! And look what people can do with and for their kids when they think the younger generation is in limbo.

Stanislaw needs help to bring this program off. He needs help and he needs some money. The CISD is making facilities and some equipment available. And the City of Cameron is endorsing with some suggestion of funding.

If this program goes, it will be the prototype for a full, professional program in another year, better financed and more widely known.

But all the elements of its success await participation, not only of adult leadership, but of kids who really want to compete and, to learn.

110-110-110

Now that construction projects are underway around several parts of town, Cameron is seeing a confidence in itself surfacing over long years of pessimism and inertia.

It is as united an effort as any community of this size and a county of this blend could muster. Milam County has become "can do country."

COMING UP: For special pre-Apollo 11 moon-shot coverage, The Herald is scheduling a four-part series on Cape Kennedy, the astronauts who make the trip and implications of putting men on the moon in July.

Material originates with a recent staff visit to the Cape. The shot is significant not only in that American astronauts will be first to walk the moon, assuming success, but that the space program itself is in the balance among people who think earth problems might be resolved before further space expansion.

### Seaks Dry Crops ...

## Rain Drops Temperature

Rains early this week were generally welcomed although construction and street work were slowed. A .92 rainfall in 24 hours Tuesday and early Wednesday also dropped temperatures about 10 degrees below normal for early June.

Farmers with cotton and maize crops in the ground said the rain had come just as it was needed. In mid-May the farm community was concerned about too much rain and insects but several weeks of high temperatures and steady sun had dried the ground.

Construction on the new housing units, where foundation work is in progress, was halted as was street paving along E. 6th street.

Also rained out was Cameron's Girl Scout Day Camp at Wilson

Ledbetter Park. The 90-plus Scouts stayed at the park Tuesday sheltered by park buildings, but the Wednesday session was canceled when rains continued.

### Damage Heavy In House Fire Monday

Fire swept through a house at 504 Walnut early Monday morning. The three occupants escaped without injury. The fire was reported at 3:45 a.m. and firemen fought the blaze for over an hour. The house, owned by Mrs. Dick Harris, was heavily damaged.

Firemen also answered several grass fire calls over the weekend.

Temperatures for the past week have been:

### ... WON'T YOU HELP?

## City Boosts Rec Plans

What is likely Cameron's first comprehensive summer recreation program has been endorsed by the City Council. Yoe Coach Hal Stanislaw advised Wednesday.

It includes softball and volleyball for girls, a tennis program for boys and girls, a late July track meet, international folk dancing, sandlot baseball for 16 to 18-year-old boys and open gym facilities Monday through Friday.

He said some money, as yet undetermined, will be available from the City.

Stanislaw asks that girls 8 through 13 interested in either an eight-team volleyball or eight-team softball league be at Yoe Gymnasium 6:30 p.m. Friday to sign up.

About a dozen women from Cameron will supervise the program, Stanislaw said.

### GYM OPEN TWICE - A - DAY

Yoe Gym facilities will be open from 9:30 a.m. to 11:30 a.m. Monday through Friday, starting next Monday, for girls playing softball, tennis and volleyball.

The Gym will be open from 5 p.m. to 7:30 p.m. Monday through Friday for boys age 14 through 18. Tennis training sessions will be held each Saturday at 10 a.m. for youngsters, girls and boys, 10 thru 15 starting Saturday. Beginners and juniors will receive instruction in court fundamentals.

Sandlot baseball for boys 16 through 18 will be scheduled for Sunday afternoon games. Charles Wickensham, Jr., manager of Hensley-Russell, Inc., will direct the program, Stanislaw said.

The Herald also was advised that a softball league

for adults is under consideration, but is outside the summer recreation program for youth. Adults interested can contact Warren Rinn of Cameron, about the possibilities.

### TRACK MEET, TENNIS TOURNAMENT

A boys track meet is scheduled July 26 for youngsters after the Little League program is completed, he said. Awards will be given.

A tennis tournament is scheduled on the Yoe courts July 19 following the summer tennis instruction program. Awards also will be given. Frank Luecke, of Cameron, will be in charge.

Training in various types of international folk dancing will be given by Mrs. Wirt Skinner from June 23 to June 27 9:30 to 11:30 a.m. at Yoe Gym.

Stanislaw said sign-up for all these programs begins this week with individuals in charge. Complete details will be available in The Herald each week of the summer recreation program.

### 'ROCK' JAM SESSIONS

The Yoe coach also said he is looking for someone to co-ordinate various rock 'n' roll band practices at Cameron Teen Club and hopes to schedule some two-hour jam sessions at the Club during summer.

It is easily the most comprehensive recreation program for Cameron youngsters.

Stanislaw emphasized the program will not conflict with the summer Little League program, but in fact will work around its schedule.

He said some additional contact work is planned to investigate a summer swimming program. Stanislaw was planning to contact some adult leadership this week, he said.

GOING UP and down in about a week, the new elevator in Milam Courthouse is readied by workmen installing handrails in the elevator cab. Other remodeling work in the courthouse is continuing on schedule with counter-top cabinets being added to the County Clerk office and third floor offices.

Home runs made for the Hustlers were by Mark Sheguit and Sidney Youngblood and for the Lions, one by Ronnie Orsag.

Players for each team are: Lions-David Rinn, Chris Glaser, Ronnie Orsag, Nathan Kimbrel, Jimmy Horton, Chap Kostroun, and Danny Ocker, Derrick Small, Joe Portansky, Kevin Rinn, Darrell Vytiral, Glenn Glaser, James Elsenburg.

Hustlers-Mark Sheguit, John Allen Moseley, Sidney Youngblood, Michael Smith, John Matula, David Krenak, David Woods, Also Mark Woods, Roger Braden.

## Temple CC Sets Two Invitationals

The Temple Country Club has set dates for their two invitational golf tournaments. Dr. Earl Mundell, president announced today.

The seventh annual lowball amateur partnership tournament for men will be held June 28 and 29. The annual TCC Junior Tournament for boys 16 thru 17 years of age, will be held on Friday, June 6.

In the Junior Tournament, about 70 boys are expected to enter this year, with Paul Carlile of Killeen, the defending champion, expected to return. There will be a \$3 entry fee which will include a noon buffet. Entries in this tournament, which will be played over 27-holes, will be accepted until 9 a.m., June 6. Early mail entries are requested, but not required.

The seventh annual lowball amateur partnership tournament will be over the 36-hole route, with every team required to play 18-holes on both Saturday, June 28, and 18-holes on Sunday, June 29. Winners in all flights will be determined on the basis of the total 36-hole scores.

Entry fee for the lowball tournament is \$15 for each player, and this will include a noon buffet on Sunday. About 170 players - 75 teams-are expected to enter this year, Dr. Mundell said.

## Pre-School Class Set At Buckholts

Buckholts School begins registration for pre-school classes to be held starting June 16. Supt. Leon Brady asked that parents report their child's name to the school secretary prior to the opening date.

Classes will be for five and six year olds entering school for the first grade either in September, 1969 or September, 1970.

The six-week pre-school will be held each day from 8:30 until 11:30 a.m. Jimmy Hawk will be teacher with Mrs. Josie Gonzalez as aide.

Parents are asked to come with their children on the June 16 opening day.

## Vacation Bible School Will Begin June 9 At Church Of Christ

Cameron Church of Christ will have Vacation Bible School beginning June 9 at 9 a.m. through June 13.

Classes for two years of age through adults will be held each morning from 9 until 11 a.m. and teenage classes will be held from 7:30 until 9:00 p.m. each evening.

Activities planned include songs, Bible studies, filmstrips, and refreshments. The church is located at East Third and Central Streets in Cameron.

## Mental Health

### EARLY TUTORING MAY INCREASE CHILD'S IQ

Usually, the results of research studies are not particularly exciting. Sometimes they are discouraging. Rarely are research findings highly encouraging.

But there are exceptions. This is the case in the report of a recent study by Institute scientists.

The encouraging finding of the three-year research project is that the IQ's of culturally deprived children can be substantially increased during infancy by a simple tutoring program.

Most youngsters learn to talk in the period between 15 and 36 months. Dr. Earl S. Schaefer, NIMH psychologist who carried out the study, believes that children are especially receptive during this time.

He also concludes that the children's environment during these ages influences their future intellectual development.

"Unless the infant is reached at this early period," Dr. Schaefer says, "he can catch up only with the greatest difficulty."

In the study, with parents' and community agencies' cooperation, two groups of Negro boys between 15 and 36 months of age were selected from low income neighbor-

Furnon Shuffield, Jimmy Zalesky, David Raymond, Dan Garcia, Johnny Sanders.

White Sox-Raymond Alvarado, David Cummings, Charles Harde-man, Melvin Hurdle, Timothy Matthews, Timothy Mitchan, Richard Botts.

And Stephen Vrazel, Stephen Raabe, Jason Raymond, John A. Schmidt, Gary Vrazel, Gregg Wilby, Rudy Barbosa.

Yankees-Brian Hagg, Douglas Price, Wayne Elbey, Steven Hollas, Mark Glaser, Brent Zarosky.

Also Billy Thompson, Mark Looney, Steven Thompson, Carl Wolfington, David Wolfington, Bill Corbin, Chris Corbin.

Giants - Mike Barr, Stanley Schigut, Don Stanislaw, Bobby Burton, Curtis Wise, Jack McCall, Mark Simmington, John Stanislaw.

And Michael Marek, Bill Martin, Thomas Michalka, Albert Hanel, Larry Burnett, John Miller, and Tom Williams.

GEORGE KAMENICKY

## Kamenicky Grandson Is Academy Graduate

George W. Kamenicky, grandson of Mr. and Mrs. Rudolph Kamenicky of Route 1, Cameron, is among 600 cadets in the 1969 Air Force Academy, Colo., graduating class.

Cadet Kamenicky is the son of Senior MSGT. and Mrs. J. G. Kamenicky of Derby, Kansas. He will receive his BS degree and be commissioned a second lieutenant in the Air Force June 5.

He majored in civil engineering and was named to the Dean's list for his academic achievements.

## Three-Day Course On Emergency Care Offered At Austin

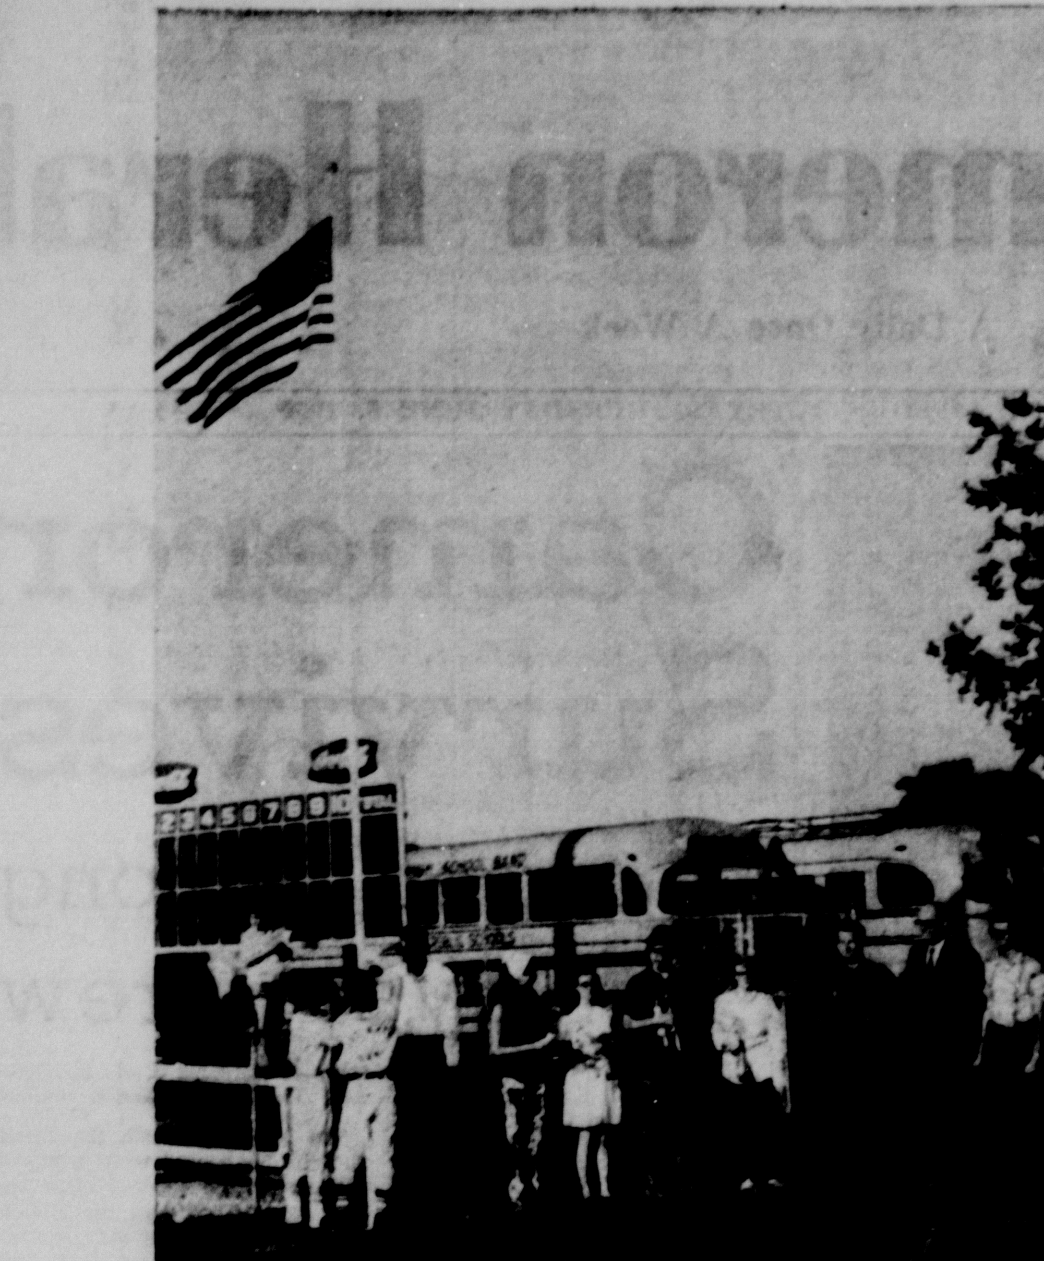

The first practical course on emergency care and transportation of the sick and injured to be held in the Central Texas area is scheduled June 10, 11, and 12 in the auditorium of the Public Health Center at 703 E. 14th, Austin.

Invited to the free, three-day course of lectures and demonstrations are ambulance attendants, policemen, firemen, safety engineers, rescue squads, nurses, public health, civil defense, and other officials or private citizens dealing with the handling of persons who are sick or injured due to accidents.

The course is given by the Texas State Department of Health and the Medical Education Department of Brackenridge Hospital in Austin.

dent, a quartet from the Yoe High Band, Johnny Moseley, Little League vice president, Rev. J. E. Lafferty, Lions Club president and Grover McCullin, chairman of the Lions committee that purchased the flag and pole.

## Wins, Losses For All . . .

# LL Opens At Fast Pace

If the opening games in Cameron Little League baseball play are any indication, this year's season could be topsy turvy as far as league leaders are concerned. All teams, with the exception of one, have had the thrill of winning and all teams have had the experience of knowing what it is to lose.

### INDIANS-CARDINALS

The Indians lost their first game Monday in another crowd thriller. It was their third game that was tied in the last inning. However, this time the 10-10 tie was broken in the 6th by a Cardinal run.

The game gave both teams two wins for the season. The Indians downed the Yankees and the Colts in games that went into extra innings.

The Cardinals fell into the defeated column at the hands of the Yankees and took a win over the Bears.

Rallying for the Cardinals in the 11-10 win over the Indians were Ibra Henry, Joey Mondrik and Edwin Marek with 2 runs each.

each and Scott Mitchan, Gene Goeke, Allen Jones and Ricky Hollas with one run each. Joey Mondrik and Gene Goeke saw action on the mound with Ricky Hollas behind the plate.

Indian players took an early lead with Dale Mueck leading the scoring column with 4 runs. Al Matula, Mike Mueck, Randy Chamberlain, Phil McCull, Jeff Simons and Niehmial Rangel all scored one run.

Three pitchers saw action for the Indians, Dale Mueck, N. Rangel and Mike Mueck. Mike Mueck and Donald Korman alternated behind the plate.

YANKEES-CARDINALS The Yankees came up with an impressive 10-0 win Thursday over the Cardinals. Yankee pitcher Jeff Smitherman pitched a no-hitter, with 15 strikeouts. He also had four RBIs to lead the Yankees in runs batted in.

Mike White, catcher, led the scoring column with 3 runs. Gene Kopriva and Joe Smitherman scored 2 each and Izzy Sanchez,

Bruce Zarosky and Jofus White scored 1 run each.

Gene Goeke and Joey Mondrik shared pitching duties for the Cardinals with Ricky Hollas behind the plate.

### COLTS-BEARS

The Colts chalked up their first win of the season Friday night when they edged out the Bears 4-2.

It was a come-from-behind fight for the Colts before they were able to take a lead in the fifth inning. Gary Hornung, Randy Sapp, John Houston and Ricky Kelley put the scores on the scoreboard. Hornung was winning pitcher and Sapp was behind the plate.

Kenneth Scott was on the mound for the Bears and Brian Wilkinson was behind the plate. Names of players who scored for the Bears were not available.

Tuesday's game between the Yankees and the Bears was called due to bad weather. The game will be rescheduled for a later date.

## State Will Benefit From New Technical Education, Says Watson

Sen. Murray Watson said he was pleased with the 61st Legislature's accomplishments, particularly in the field of education.

"It was most pleasing to me to have James Connally Technical Institute at Waco separated from Texas A & M University and become the key campus in the newly created Texas State Technical Institute, with campuses at Harlingen and Amarillo," he said.

Watson said the institutions will provide education and training for many people which will enable them to secure and hold good paying jobs, "making them responsible citizens of their communities and of the state and giving many of them a dignity they had not previously enjoyed."

Senator Watson will serve on an advisory committee to urge passage of Constitutional Amendment No. 4, which would exempt non-profit water corporations from ad valorem taxes.

He will also serve on the Governor's Committee For Amendment No. 2, which would authorize increasing the Texas Water Development Fund by \$3.5 billion.

In his weekly report Watson expressed regret that the one-year appropriations bill did not provide funds for granting merit pay increases to state employees.

Also, "many of our state institutions, including those in the 13th Senatorial District, did not receive the funds they need to operate at maximum efficiency," he said.

"I am hopeful that this will be rectified in the next year of the biennium or during a special session, if one is called by Governor Smith," Watson said. "I shall do all I can to see that our state employees, our school teachers, and our state institutions receive adequate pay and funds."

## A Happening ....

Milam County's need for creating enough employment to offset our aged's numbers is dramatized by 1969 social security figures.

By January 1 past, 3,235 countians over 60 are listed. This number is the reason Milam County draws \$3.18 millions per year in benefits.

From a positive view, this is a big source of income, but it is passive income.

Milam County and Cameron are succeeding in creating active income for younger people and young families.

The elderly are deserving of care in

their later years. They naturally vote conservatively, even ultra - conservatively on amendments and public issues because they are in retirement years.

But . . . the dynamic young and middle years are gaining in Milam numbers, not so much to displace the older, but to expand the pattern of necessary growth in the Milam community.

In other words, Milam is assuming an active role because the County must, the elderly's numbers an obvious reason it is happening.

## What Others Say . . .

### Down And Out In Moscow ...

Foreign correspondents are said to lead a cheery life, interviewing foreign ministers, monitoring small wars, occasionally essaying a journey to Katmandu or Kyrenia. But it is not always all that cheery because there is no telling how the reportage will be received by the, ah, host country. And since there is no other way to do it, really, other than to tell as much as you can tell of the story and take your chances, the repercussions can come swiftly and unpredictably. It doesn't even matter whether the regimes in question are nominally friendly or openly hostile; the test, in most cases is whether they are totalitarian or relatively free.

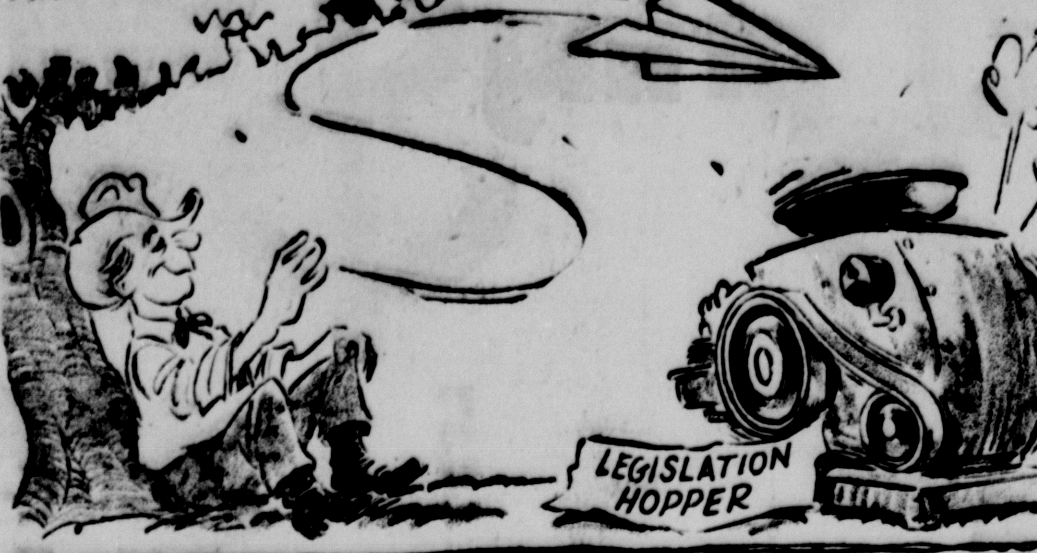

Take, for example, our latest experience in this connection: the abrupt, not to say, rude ouster of The Washington Post's Moscow correspondent, Anatole Shub, on charges of having "slandered" the Soviet state. Mr. Shub had not filed a story in two weeks and he was to end his Moscow assignment in two months. Yet he was called in and ordered to leave the Soviet Union within 48 hours. The Moscow authorities did not specify which stories of Mr. Shub's had so outraged or alarmed or frightened

them, as the case may have been, so we can only guess that it was a whole series of articles, having to do with political struggle in the Kremlin and the ascendant influence of the Red Army and the backlash felt by Soviet dissenters. At any rate, the Moscow authorities regularly harass the foreign press corps and occasionally kick one of their number out, just by way of keeping them all aware of what can happen to those who try to do an honest job.

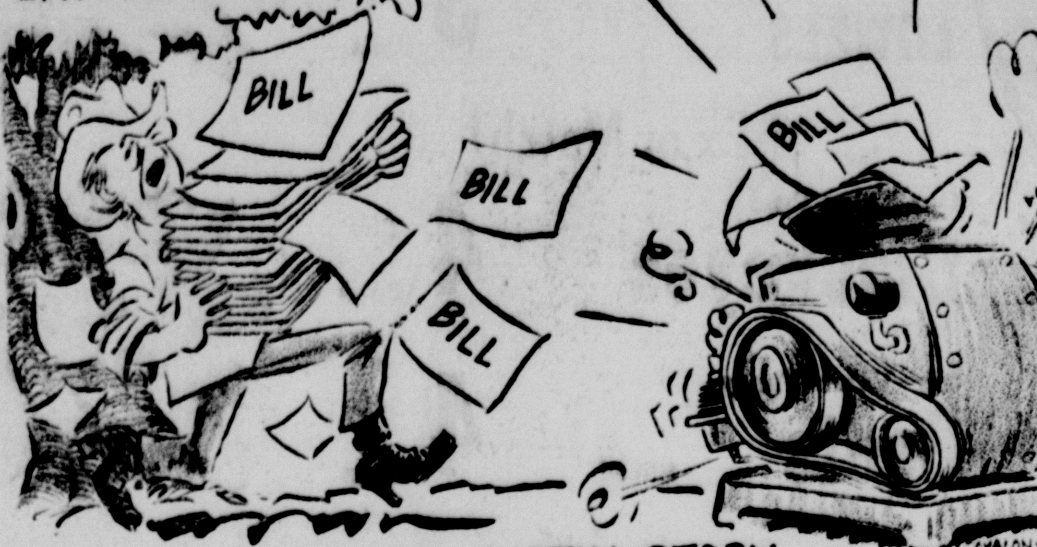

An inability to countenance journalistic scrutiny is, of course, a familiar sign of immaturity, one seen in Moscow before but no less depressing on that account. The ouster of Mr. Shub can only call further attention to the insecurity in the Kremlin hierarchy of which he had written. In fact, his coverage in Moscow was no different in kind of intensity than the coverage routinely given by American correspondents to their own Government in Washington. It is more discouraging than irritating, to us, that the Russians still cannot abide a dedicated journalist doing an honest job.

# Tax Bill Must Be Written Before 61st Job Is Done

By Vern Sanford

Texas lawmakers have written the record of the 61st regular session, but their toughest job—levying the taxes to pay for what they have ordered — remains to be done.

In adopting a \$2.8 billion one-year state budget (for 1970), they invited a special session to complete appropriations for 1971 and to decide on the inevitable major tax bill. Legislative leaders, Lt. Gov. Ben Barnes and House Speaker Gus Mutscher, claim the latter will be smaller if the finance showdown can be delayed until next year.

Gov. Preston Smith, who holds the key to the timing of the special session, has made clear from the start that he feels the Legislature should face up to a biennial budget and the raising of needed revenue. He could veto the single-year bill and call another session immediately — or accept it and schedule the remaining financial work whenever he pleases.

Many all-time legislative records have toppled at this session. Certainly, the 61st session passed more legislation than any before it, and it was committed in advance to spending more money.

A multitude of laudable ends were attained. Giant strides were made in the field of education. Teachers got a \$61.9 million pay raise. Overhauls were ordered in the field of vocational and technical education. Three new medical schools, a dental school and two new nursing schools were authorized. Also, three new universities, plus an experimental upper level branch college in Laredo. Never have so many new higher educational facilities been launched in a single session.

A master water plan got all the legislative support it could expect. Workmen's compensation laws were updated. Sweeping controls were approved over air and water pollution. A constitutional amendment to legalize the sale of liquor by the drink was submitted, along with many other proposed changes in the constitution. State employees got a 6.8 percent pay raise.

Texas' 61st Legislature was a busy, productive session. It was a liberal-spending one with the bills yet to be paid.

"The citizenship of Texas will applaud our work at this session and give us their full support when we return to appropriate and finance the second year of the biennium," concluded Speaker Mutscher.

## LAW ENFORCEMENT

Texas' new State Criminal Justice Council has recommended a comprehensive \$1.1 million law enforcement plan that covers a wide scope of activities.

Governor Smith will analyze it before it goes to the U. S. Department of Justice for approval and funding under the Federal Omnibus Crime Control and Safe Streets Act of 1968. Funds for a two-year operation must be committed by June 30.

Texas received \$234,000 for riot control and \$830,350 in planning money six months ago.

Council voted priority funding to these programs: Prevention of juvenile delinquency, education and training in all elements of the criminal justice system, regional and statewide information and

communication systems, community relations programs, experimental and demonstration projects to test and evaluate new approaches to solving problems in criminal justice system.

Approved funds will be disbursed to 21 geographical planning regions of the state. Congress now is considering funding which would provide Texas more than \$11 million in action money, plus planning aid for next year to develop a long-range plan and begin putting it into effect.

## COURTS SPEAK

An order by the Midland District Court to jail nine union members for picketing the Texaco plant at Port Arthur was invalidated by the State Supreme Court. House of Representatives followed up in a matter of hours by passing a bill directing that lawsuits to halt picketing and strikes must be filed in the counties where the labor dispute arises.

Supreme Court ordered an Austin trial before August 1 of Clyde Durbin Jr. charged with killing two University of Texas students early this year.

Third Court of Civil Appeals affirmed a lower court condemna-

tion awards of \$247,526 against Austin in connection with Decker Lake and a park area east of the city.

## BEAUTIFUL TEXAS

Governor Smith will keynote a one-day workshop June 11 to stimulate the preservation and enhancement of natural beauty in Texas. This second annual clean-up and beautification conference of the Beautiful Texas Council will be held at the Villa Capri Motor Hotel in Austin.

Other speakers will include O. P. Schnabel of San Antonio, president of the Council, DeWitt Greer, chairman of the State Highway Commission, R. H. (Dick) Hackendahl of Washington, D. C., director of the National Clean-up, Paint-up, Fix-up Bureau, Mayor C. P. Waggoner of Grand Prairie, Earl Rudder, president of Texas A&M University and Reagan Brown, sociologist-community improvement specialist with the Texas Agriculture Extension Service.

Beautiful Texas Council was organized in 1967 to combat the litter problem and to advise and act as a coordinating agency through which business and industry, government, public and

## OLD PHILOSOPHER

Dear editor:

Like nearly everybody else I guess I followed the astronauts to the moon last week and am now convinced we can actually put a man on it this summer if the money doesn't run out, but a phase of the project has been bothering me since I read an item in a newspaper day before yesterday.

According to it, great precautions are going to be taken to keep the moon-landing astronauts from picking up possible moon germs and bringing them back to earth. When they get back with their 30-billion dollars worth of rocks and soil samples, the astronauts as I understand it, as soon as they splash down in the ocean, will be sealed with their loot inside germ-proof bags and untouched by human hands, flown to their base and let out in a germ-proof room for a few weeks, so that if any moon germs have been picked up they'll die before they get a chance to take hold on earth.

This is no doubt a good idea, certainly we've got all the germs we need on earth now, but I was just thinking: What precautions are we taking not to get any earth germs started on the moon?

Here we've got an unspoiled object that's been floating around up there for centuries and you let an astronaut with a head cold step out and the first rattle out of the box sneeze, and the moon will never be the same again.

Of course if there's no life on the moon and no possibility of any, then no harm will be done, but how do we know something can't grow up there?

This is a question that ought to be answered and I'm proposing a scientific experiment to find out.

All the space scientists have to do is shoot a small rocket full of Johnson grass seed up there, and if that stuff doesn't take root and grow in 30 days, you know the moon is eternally barren.

Yours faithfully,  
J. A.

## ATTORNEY GENERAL RULES

A person not registered as a voter is ineligible for election or appointment as an independent school district trustee. So advises Atty. Gen. Crawford Martin in ruling on a Spring Creek school election issue. A similar opinion was returned earlier following a Honey Grove controversy.

In other recent opinions, Martin held that:

—Texas Foundation School Fund Budget Committee must include cost estimates for the school program training all prison system inmates over and under 21 years of age who are not high school graduates.

—A bill providing for private road construction and maintenance in counties of 10,000 to 10,050 population is unconstitutional as a local and special bill.

—Bexar County is required to advertise for competitive bids on all purchases including road machinery, although some emergency

buying is expected.

—State funds cannot be used for payment of group insurance policies for legislators and their dependents.

—An act to prohibit corporations from engaging in farming or ranching (allowing a 10-year period to sell interests) would be constitutional.

—State treasurer must publish information on unclaimed funds over \$50 held and owing by life insurance companies.

## Candlelight Ceremony Joins Dubcak-Raley

The sanctuary of Memorial Baptist Church in Temple was the setting for the Friday evening formal candlelight ceremony uniting Miss Jerri Paulette Raley and Arnold Charles Dubcak Jr.

The Rev. Morris H. Chapman of the First Baptist Church of Rogers read the vows for the double ring ceremony.

Miss Raley is the daughter of Mrs. Elwood Raley of Rogers and the late Mr. Elwood Raley. The bridegroom is the son of Mr. and Mrs. Arnold C. Dubcak Sr. of Route 3, Temple.

Mr. and Mrs. Larry Wade Guess of Huntsville, soloists, and Mrs. L. P. Moore of Rogers, organist, provided the nuptial music.

Richard Elwood Raley, brother of the bride and Stevan Hendrick Ward of Rogers lit the candles.

The altar was banked with jade foliage and the choir loft held seven branched candelabra in a split-level design with yellow gladiolas and daisies interspersed. A brass kneeler completed the setting.

The bride, given in marriage by Mr. D. D. Ward of Rogers, wore a designer original A-line formal gown of silk faced satin. Alencon lace appliques outlined the empire bodice, portrait neckline, hem, and the detachable circular cathedral train. A coil of alencon lace petals and crystals held a hand rolled English illusion veil. Her bouquet was a cascading arrangement of Kilian and Marguerite daisies with picot satin lily knots and miniature English ivy.

Mrs. Gary Wiese of Fort Worth and Mrs. A. B. Jistel of Temple served the bride as matrons of honor. Mrs. Johnnie Ray Hatcher of Bryan was bridesmatron. Miss Linda Farrell of Rogers was maid of honor and Miss Sharon Mikeska of Temple and Miss Donna Gunter of Rogers served as bridesmaids.

The attendants wore floor length dresses of yellow and white dotted swiss silk organza in an empire design and carried baskets of daisies and miniature English ivy. Daisies were placed as accents in their hair.

Darlyn Jistel of Temple was flower girl. She wore a yellow and white dotted swiss silk organza dress fashioned after the bridesmaids.

Ronald David Dubcak of Denton served his brother as best man. Groomsman were Richard Elwood Raley and Stevan Hendrick Ward of Rogers, Jimmy Douglas Mayfield of Buckholts, Donald Mikeska and Leroy Meyer of Temple, Glenn Dubcak, cousin of the groom was ring bearer.

After the ceremony, a reception was held in Fellowship Hall.

The bride's table was laid with a white eyelot organza cloth over yellow. Centering the table was the bride's bouquet and a five-branched candelabra entwined with ivy and daisies. The tiered, all white wedding cake, topped with white love birds was served by Miss Jan Merka, Miss Marsha Guess, Miss Vicki Ray of Rogers, and Mrs. Edward Johnson of Waco. Serving at the silver punch bowl were Miss Norma Clark of Fort Worth, Mrs. Carl Foster of Temple, Mrs. Jerry Decker and Mrs. Carl Foster of Temple, Mrs. Jerry Decker and Mrs. Ron Vasalinda of Rogers.

The bridegroom's table, covered with a yellow linen cloth, was centered with a single large moss green candle in a brass candle holder entwined with English ivy. A single ring chocolate cake was served by Miss Linda Mikeska of

## Committee To Study . . .

# Year Round School Days?

The four-quarter school system will be studied by an interim committee during the next two years, following passage of a House of Representatives resolution.

The resolution, appropriately numbered H.R. 365, was introduced by Rep. Dan Kubiak who will

probably head the interim study committee. He is a member of the House Public Education Committee.

House Speaker Gus Mutscher will appoint to the committee three members from the House, and one member each from the Texas State Teachers Association,

the Texas Education Agency staff and the staff of a Texas public school or institution of higher education.

"There's a tremendous amount of work in this study for it will delve into the unknown. Six states have already conducted a four quarter program," Kubiak said.

"If there is a plan that enables us to get a great deal more mileage out of our hard earned school dollars, permitting our youngsters to learn more and still allow an equal three-month vacation per year, we want to know about it," Kubiak added.

"This plan enacted by Michigan, Georgia, New York, California, Florida and North Dakota calls for a 'sliding' four-quarter use of the schools," Kubiak continued. "Eighty percent of the student enrollment is in school at any one time. There is a one-week break between each quarter of operation for maintenance, repair and administrative functions. Some advantages include:

1. The labor market will, the year around, have one-fourth of the students for employment thus aiding employers and families who need the added income the student can earn.

2. Administrators are paid on a 12-month basis while teachers may work nine and supplement an additional three months, if desired.

3. We can educate 40 percent more students at a 75 percent decrease in education costs. Although air-conditioning will be needed, the overall savings are fantastic.

4. Schools are operated the year around.

"This interim committee has a tremendous task before it in searching all available facts concerning this four-quarter plan. We must check with parents over the state, educators, businessmen and people in all walks of life to see the feasibility of the program. It is a great challenge and lots of work is in store. The committee is instructed to report back all of its findings to the 62nd Legislature in 1971," Kubiak stated.

## Jobs Plentiful In Farm Mechanics

Help wanted: 2,000 qualified farm machinery mechanics to begin work immediately.

That's the call from repair shops throughout Texas, a plea that will get louder because of an expected need for more than 7,000 farm machinery mechanics within the next five years, according to Dr. Earl S. Webb, professor of agricultural education at Texas A&M University.

"Unless steps are taken to meet this need, unpaired farm machinery could cause a creeping paralysis of agricultural operations," Webb says.

A survey of farm machinery service department managers, just completed by Webb, verifies this shortage and outlines what is desired of individuals for employment as machinery mechanics. Webb made the study to determine what should be taught to high school students as preparation for this career.

### CAUSES OF SHORTAGE

Two of the reasons Webb cites as causes for the current shortage of machinery mechanics have been the lack of a training program for the job and the increasing complexity of the equipment to be repaired.

Many farmers who previously doubled as machinery mechanics, providing a good source of workers, find it more difficult to perform repair on today's machinery. The limited source of mechanics has caused businesses to pirate employees from their competitors and the automobile industry to entice mechanics from farm machinery repair.

Members of the house party were Mr. and Mrs. D. D. Ward, Mr. and Mrs. H. H. Wright, Mr. and Mrs. J. H. Merka, Mr. and Mrs. Doyle Ray, Mr. and Mrs. E. A. Smith Jr., Mr. and Mrs. B. F. Harbour of Rogers, Mr. and Mrs. Riley Gilleland of Davilla, and Mr. and Mrs. Henry Siekka of Temple.

Miss Jan Merka, Miss Vicki Ray and Miss Marsha Guess distributed the rice bags.

The bride is a graduate of Rogers High School where she served as a twirler for the band, attended Baylor University in Waco where she was a freshman twirler and is a senior nursing major at Texas Woman's University in Denton. She is a member of Sigma Tau Lambda and the N.L.N.

The bridegroom is a graduate of Rogers High School, and is a senior at Texas A&M University. He is a modern language major, is president of the Russian and Czech clubs, and is a dormitory counselor.

After their wedding trip, the couple will make their home in College Station for the summer.

After the Thursday evening rehearsal, Mr. and Mrs. Arnold C. Dubcak Sr. honored the bride and groom and their attendants with a dinner at the Ponderosa Restaurant in Temple. The bride and groom presented gifts to their attendants.

### chinery repair.

Wages for machinery mechanics average about \$2.50 per hour statewide, below that of most skilled laborers, Webb pointed out. An average work week is 48 hours, ranging from 44 to 54 hours, and unskilled machinery mechanics usually begin at about \$1.50 an hour. Thus, wages have also had an effect on the shortage, Webb said.

Action is being taken, however, to help eliminate this shortage. Webb added. In 1966, the Texas Education Agency set up a "Pre-employment Laboratory Program in Farm Machinery Service and Repair" for junior and senior secondary students. All instruction is given in the schools using facilities similar to commercial repair shops. About 35 Texas schools are now offering this program, Webb said.

Webb's survey was conducted to aid this program by accumulating suggestions from farm machinery service departments on courses of study needed to prepare students for this career. Survey information will be used to construct a more adequate curriculum of training, Webb explained. "To meet the demand of qualified farm machinery mechanics, we are going to have to accelerate our training programs in the schools, or else the companies will have to set up their own programs," Webb concluded.

### SILAGE FACILITIES

As dairy and beef cattle producers consider further expansion of silage feeding, they should also give careful thought to the need for additional silos and related filling, unloading and feeding equipment.

Resolution Honors  
Rockdale Sergeant  
Killed In Vietnam

The Texas House of Representatives passed a resolution last Thursday honoring Sgt. Howe King (Petie) Clark Jr., of Rockdale, who died in action in Vietnam on May 23.

Sgt. Clark had been in Vietnam for about ten months. He was a 1964 graduate of Rockdale High School.

The resolution, introduced by Rep. Dan Kubiak, extended sympathy to the young sergeant's family. Mr. and Mrs. Howe King Clark, his sister Frances Ann, all of Rockdale, and his brother Ken, stationed in Thailand with the Armed Forces.

## County Agent's Notes . . .

## ASCS

By Alva E. Sanders

Practices encouraged by the 1969 Agricultural Conservation Program are helping to improve and conserve soil and water resources on about 450 farms in Milam County.

Each year, throughout the county, about a million farms take part in ACP and well over 2 million different farms participate in four or five years.

Under the Agricultural Conservation Program last year, conservation measures on Milam County farms represented a total investment of around \$125,000 in ACP cost-shares.

Since similar investments were made through ACP and by farmers in all of the Nation's agricultural counties, the people of America benefited from close to a half-billion dollars' worth of ACP conservation work.

The ACP for 1969 - the 34th program year - is now well under way, and most farmers who intend carrying out needed conservation measures on their farms this year have already arranged for ACP cost-sharing to help expand soil, water, woodland, and wildlife conservation work.

Important ACP practices being carried out on participating farms in Milam County include A-2, Permanent Pasture; B-3, Controlling Competitive Shrubs; B - 7A, Stockwater Dam; A-4, Limestone, and terraces which include stand ard, parallel and diversion.

## Tomato Crop Is Helped By Hens

By J. D. Moore

There was no unemployment at the Perry Luetge place south of Rockdale in the New Salem Community. Mr. and Mrs. Luetge have 13,000 cage laying hens for market eggs on a contract basis.

We felt sorry for laying hens several years ago when they were put in a small cage with hardly enough room to turn around. This one hen per cage was increased to two per cage then to three hens per cage. This creates a crowded condition but is one way to increase the operators' income

on their investment.

Most outstanding at the Luetge place at the present time is their tomato crop. Chicken manure from the poultry operation was used to increase soil fertility for the tomato crop. High fertility with clear, open weather has been ideal for tomato production.

This county agent has been around quite a while and is of the opinion that the Luetge tomato crop will rate among the very best. The Luetges will start harvesting very attractive, high quality tomatoes about June 1.

Those who may have doubts about or interested in seeing a good crop of tomatoes are advised to visit the Perry Luetge place that may be reached by going south out of Rockdale on Farm Road 908. With a little "arm twisting" the Luetges might let you harvest some tomatoes for home use.

GOOD CROP PROSPECTS

County farmers are due a "tip of the Stetson" for their use of good equipment, good seed and chemicals along with their "know how" in setting up some good crop prospects in Milam County.

Saw one field of maize showing some heads in the San Gabriel community on May 23.

Clyde and Charles Hensley have prospects for a good cantaloupe crop in the Belmena Community.

The dry, hot weather has favored cantaloupe and watermelon production. Watermelon plants in the Rockdale area look good. With a little luck, truck farmers will soon be going to market with a good crop of quality products.

ARRIVE IN TRIPOLI

Mrs. Jack Walker cabled her mother, Mrs. Florence Markham, that she and her children had arrived safely in Tripoli, Libya.

They flew there to join her husband who is with Humble Oil Co., and will all return to the States in July on vacation.

## Gause

# A Closer Walk With GodWill Lead You Right Straight to Church

...true happiness, or to a state of disillusionment? Will the future be happier because they have a diploma? Unless they are prepared to take prosperity without pride and adversity without anguish... they are still unprepared. What is crooked by nature can only be made straight by God. If they have learned to do their duty instead of demanding their rights, they are learning God's way of life.

## OUTDOORS IN TEXAS

By Vern Sanford  
A fantastic lake in Texas is the impoundment generally known as "Alcoa," near Rockdale. It is one of the most "constantly good" fishing lakes of its kind.

Alcoa furnishes good fishing for bass, crappie, bream and catfish practically the year around.

This lake was built by the Aluminum Company of America, when it opened its plant near Rockdale back in the early fifties. Alcoa Lake was stocked by the Old Game and Fish Commission, kept closed for a reasonable time, then opened to public fishing.

Since then thousands of pounds of wonderful fish have been taken from the lake.

Alcoa has permitted a concession on the lake, where boats can be rented or supplies bought. There are certain necessary restrictions, but none any good sportsman wouldn't approve.

It is a picturesque spot. Heavy smokestacks of the aluminum plant form a background that is most interesting. Part of the shoreline is rocky. There are also many cattails, reeds and willows along the banks. These furnish fine cover for the fish.

Alcoa Lake is kept at a fairly constant level because the company pumps in water from the San Gabriel and Little rivers some 12 miles away.

This lake is unusual from another standpoint. It has a "built-in" hatchery, which produces a good crop of brood fish earlier

than most other lakes in Texas. Actually there are two lakes. Connected by a deep channel. In one of these lakes the water used in the cooling process is released. This water is 10 to 20 degrees warmer than the water in the main body of the lake.

Fishing is not permitted in this water. As a result big brood bass are developed and they spawn early. Their young eventually work on out through the channel into the cooler water where they grow big and sassy.

State biologists go to this warm section every year and take a number of large brood bass for their own hatcheries. This gives them production much earlier than could be normally expected.

Alcoa also is one of the best crappie lakes and many fine strings are caught in the deeper water. Bream are very plentiful along the shoreline, offering good sport for fly and light tackle fishermen.

Alcoa is a popular lake not only with residents of the nearby towns, but with people from more than 100 miles away. It is one Texas lake where anglers are more likely to get a good mess of fish than perhaps from any other lake.

A huge oak concession building is near the lake, which provides ample shade for a park. Tables in the park make it a wonderful recreation area. Users help keep it clean by doing away with their own litter.

This is a lake of many regulars. The same people go there time after time. They are well acquainted with all the hotspots on the lake. Perhaps that is the reason there are so many good catches reported.

This fabulous lake also has meant much in the way of good-will for Alcoa. The lake is a necessity for the plant and it could have been fenced off, like so many other similar impoundments. However, its gates have been opened by the company and everyone who fishes it is appreciative of its qualities.

## Appraisal Price Fair To Veteran, Builder

In the past year, only one out of every 14 home-buying veterans paid more for his GI home than the Veterans Administration's appraisal price, VA said today.

This indicates that its reasonable value appraisal is fair for the builder or seller as well as for the veteran.

The VA explained that Public Law 90-301, which went into effect May 7, 1968, gives veterans the right to pay more for a home than the VA's reasonable value appraisal.

However, the VA requires that this difference be paid in cash. In the first 10 months following enactment of PL 90-301, the VA guaranteed or insured a total of 198,814 home loans. Of this total, only 14,325 — or 7.2 percent — had a purchase price in excess of the VA's reasonable value appraisal.

## Rep. Kubiak Praises Cooperation Of Lawmakers In Session Action

Rep. Dan Kubiak praised the cooperation and cooperation of fellow House members and Senators in helping pass bills he sponsored or co-sponsored during the 61st session of the Legislature.

Kubiak called his first session as a lawmaker "the greatest challenge of my life," and added, "I have been blessed in getting all of my bills passed."

These include:  
HB 339 - a protective contracts bill for local school districts in collecting delinquent ad valorem taxes;

HB 443 - provides that a local school with anticipated surplus income may issue time warrants for necessary construction, etc.;

HB 24 - increases pensions for Confederate widows, whose average age is 94, from \$100 to \$150;

HB 240 - teacher pay raise (co-sponsor);

HB 1438 - gives local control on local conditions;

HB 107 - quality Egg Bill (co-sponsor);

HSR 365 - Interim study committee on feasibility of four-quarter school system (replaced HB 1363).

## Watson Named To Water Committee

AUSTIN  
Senator Murray Watson Jr. of Mart and Waco said today he has accepted a request from Governor Preston Smith to serve on the Governor's Committee For Amendment No. 2.

"I am very pleased to serve on this Committee," said Watson, "and I am grateful to the Governor for this opportunity to serve."

"I feel it of paramount importance that the people of Texas adopt this Amendment on August 5. Approval of Amendment No. 2 will place Texas in position to fully develop its water resources so that we can maintain our economic growth and provide the water that our municipalities, our industries, and our agriculture will need in the years ahead."

"Texas must have adequate water to meet the needs of its growing population, its expanding industries, and its irrigated agriculture. Without adequate water, Texas will suffer economic decline."

Amendment No. 2 would authorize the Texas Water Development Board to issue \$3.5 billion in bonds over a 50-year period to pay Texas' share of the cost of the Texas Water Plan.

## LEGAL NOTICE—NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS

No. 2676  
Notice is given that VIRGINIA W. GREENWOOD, CAROL G. SWAFFORD AND T. Y. SWAFFORD, d-b-a Woodall Farm, c-o Ralph W. Vertrees, Attorney, Suite 400 First Federal Savings Building, Austin, Texas, applicants, seek a permit from the Texas Water Rights Commission to divert and use 284 acre-feet of water per annum from either an unnamed tributary of Pond Creek; a tributary of the Brazos River; Pond Creek itself; or the Brazos River, Brazos River Basin, with no limitation as to the amount to be derived from each source, to irrigate 142 acres in the Byrum Wickson Survey, Abstract No. 68, and the J. Walters Survey, Abstract No. 65, Milam County, Texas.

Applicants propose to construct a 39 acre-foot capacity reservoir on the unnamed tributary of Pond Creek to be used in conjunction with the irrigation system. Station 1 plus 00 on the centerline of the dam will be N 88 degrees W, 1,930 feet from the southeast corner of the Byrum Wickson Survey, Abstract No. 68, Milam County, Texas, and 16 miles northeast of Cameron, Texas, all being more fully set out in the application.

Application No. 2676 was accepted for filing by the Texas Water Rights Commission on April 28, 1969, and a hearing thereon will be held by the Commission in the Sam Houston State Office Building at Austin, Texas, on July 10, 1969 at ten o'clock a.m. Those opposing the granting of said application should file written protests with the Commission and the applicant at least five days prior to hearing date, giving their reasons therefor and such other information as is required by Commission Rule 305.2.

Joe D. Carter, Chairman  
TEXAS WATER RIGHTS COMMISSION  
Date: May 8, 1969 11-21c

Working with Rep. Kubiak on the bills were Senator Murray Watson and Senator Moore, according to Kubiak's weekly newsletter.

A special session "has become inevitable" to complete state budget plans following passage of the one-year appropriations bill, Kubiak said.

The \$10 semester fee hike passed by the Legislature was not supported by Rep. Kubiak. He said 49 "noes" were cast against the measure which had met with Gov. Preston Smith's displeasure.

"Of the 300 plus bills that passed this week (May 26-30), SB 218, proposing new laws relating to the legitimacy of children, is much needed legislation," Kubiak said.

Other bills passed included the much publicized teacher pay raise; a name change for Texas Tech College to Texas Tech University; liability to gratuitous guests in motor vehicles; occupants of school and public lands in which a mistake may have been made in survey.

A constitutional amendment authorizing the Legislature to provide for the establishment of a uniform method of assessment of ranch, farm and forest lands will be voted on in November of 1970.

## Beautify Texas Workshop Set

Gov. Preston Smith will keynote a one-day workshop of the Beautify Texas Council in Austin on June 11.

Hundreds of Texans deeply concerned with the problems of beautification and desecration of Texas' natural resources are expected to attend the day-long session.

Theme of the workshop will center on local action, with emphasis both on rural and urban beautification. DeWitt Greer, chairman of the State Highway Commission, will speak at the morning session on highway beautification.

O. P. Schnabel of San Antonio, president of the Beautify Texas Council, will be first speaker of the morning session. Other speakers will include R. H. Hackendahl of Washington, D. C., Mayor C. P. Waggoner of Grand Prairie, and Reagan Brown.

Mrs. E. O. Barton of Houston will appear for Texas Garden Clubs Inc., and Mrs. Henry Shaper of San Antonio will represent the Texas Federation of Women's Clubs.

A registration fee of \$4 will cover cost of the luncheon. Due to limited facilities, advance registration is suggested. Interested persons may register by writing Jack Sloan, secretary-treasurer, Beautify Texas Council, P. O. Box CS, College Station, Texas.

## RICE HOMECOMING

The annual Rice homecoming will be Sunday, June 8, at the Rice Church. Everyone is urged to come and bring a basket lunch.

## Growers Should Check Fields For Grain Sorghum Diseases

Grain sorghum is making good growth in the South, and soon will be in the northern areas of the state. It's real important that farmers get out and see what's occurring in their fields and figure what sort of disease control measures to use for the coming year, says Dr. C. Wendell Horne, Extension plant pathologist at Texas A&M University.

Two diseases that could cause trouble are downy mildew and maize dwarf mosaic virus.

Downy mildew is characterized by down or a fuzzy type of growth on the underside of the leaf surface. Stripping of young plants occurs when the plant is systemically infected. Infection causing this symptom occurs in the soil. Plants that are systemically infected are sterile and will not produce a normal seed head, said Horne.

The fungus carrying downy mildew is carried from one season to another in the soil. One helpful control measure is rotating with a non-related crop. You can also grow resistant or tolerant plants, added the pathologist. All county agents have a list of the hybrids or varieties that are resistant to

the disease.  
Maize dwarf mosaic virus requires a living host at all times. It is carried over from season to season in rhizomes of Johnsongrass. Shoots of the Johnsongrass come out in the spring before grain sorghum is planted. Aphids feed on these shoots, and then migrate to the grain sorghum, carrying the virus.

Elimination of the Johnsongrass is an effective control measure of the virus in some areas, said Horne. Tolerant hybrids should be planted. Information on these are available from the county agent.

While checking the field, watch for other diseases, such as head-mut, anthracnose, and various seedling diseases. These are all causes for concern.

Horne added that seed companies are concerned about diseases, and are incorporating tolerant characteristics into their hybrids.

## NEWS NOTES

Feature: "Harold Robbins' The Survivors," the ABC-TV series created for television by the famed novelist, will deal with "the jet-set super rich, who seek sensation and whose words and actions make headlines," Walter Doniger, the executive producer, discloses in a "Producer's Platform," which details elements in the format of the series which will be seen on ABC-TV next fall on Mondays.

\*\*\*\*\*

Ken Curtis, who plays Festus Haggen on "Gunsmoke," seen Mondays on the CBS Television Network, has a busy schedule of personal appearances set for spring and summer. Costar Milburn Stone will join him for an engagement at Cheyenne Frontier Days in Cheyenne, Wyo., July 21-24. Curtis' solo schedule includes: San Diego Rodeo, May 9-11; Spooner, Wis., Rodeo, July 12-13; Warren, Ohio, Fair, July 29-30; Moumee, Ohio, Fair, July 31; Bloomington, Ill., August 1; Mississippi Valley Fair, Davenport, Iowa, August 2-3; Burwell, Neb., Rodeo, August 6-7; Buck Lake Ranch Park, Angola, Ind., August 10; Dubuque, Iowa, Fair, August 12-13; Lovington, N.M., Fair and Rodeo, August 23. Dates also are being cleared for the Pecatonica, Ill., Fair and the Kentucky State Fair.

\*\*\*\*\*

Arlene Golonka, featured as Millie on "Mayberry R.F.D." Mondays on the CBS Television Network, will be a special guest at the annual meeting of the California Associated Press Radio and Television Association at the

Biltmore Hotel, Los Angeles, on Saturday, May 17.

\*\*\*\*\*

Jack Benny, Leslie Uggams, Don Knotts, Goldie Hawn and Robert Brown form the first contingent to be announced as presenters of the 21st annual Emmy awards by the National Academy of Television Arts and Sciences for outstanding achievement in the medium.

The 90-minute broadcast of the gala event will be presented in color on the CBS Television Network Sunday, June 8. Merv Griffin, who starts his own five-a-week late-night show on the Network on August 18, will be the East Coast host at Carnegie Hall in New York. Bill Cosby will serve as his alter ego at the Sant Monica Civic Auditorium in California.

Benny and Knotts are old hands at appearing before CBS Television Network cameras, contrasting with Miss Uggams, who makes her debut as the star of her own weekly variety show on the Network in September. Goldie Hawn is a nominee for an Emmy herself. The blonde comedienne is up for an award for individual achievement for her work on "Rowan and Martin's Laugh-In."

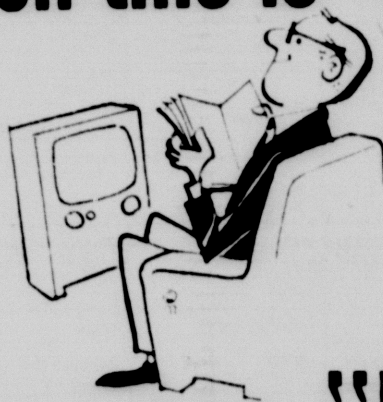

Robert Brown is one of the leads in the "Here Come the Brides" television series.

These first five presenters will do their envelope-opening on the West Coast. The remaining presenters in California and in New York will be announced shortly.

## PROGRAM HIGHLIGHTS

Ed Sullivan will be given the 1969 Lighthouse Humanitarian Award at The Lighthouse Sports World Dinner Dance in the Grand Ballroom of New York's Waldorf-Astoria Hotel on Friday, May 9.

The presentation, to be made by Frederick S. Mosely, Jr., president of The Lighthouse—the New York Association for the Blind—will be in the form of a gold record containing messages from leading sports figures, some of whom have known the CBS Television Network star since the 1920s, when he was a sports reporter for the New York Graphic.

In citing Sullivan's selection for the honor, Mosely noted "his personal interest in and concern for the welfare of blind people, his efforts to educate the community about blindness, and his contributions as a board member of the agency since 1959."

The dinner will be attended by prominent personalities from the entertainment and business worlds as well as from sports circles.

.....

The Champagne Music Makers stress a June-moon-spoon salute to romance, beginning with "For Me And My Gal," on ABC-TV's "The Lawrence Welk Show" SATURDAY, JUNE 14.

Maestro Welk makes his TV debut as an organist, playing "True Love," accompanied on a second organ by Bob Ralston and by Frank Scott at the harpsichord.

.....

Richard Meadows is found, in his pajamas, in Wembley Stadium suffering from a nervous breakdown. Burly Michael Fox has a nervous breakdown after seeing a mouse. Other executives are victims on "The Fear Merchants" on "The Avengers," in color, MONDAY, JUNE 9.

Avengers John Steed and Emma Peel discover the victims have one thing in common—they're all in the ceramics business.

.....

Samantha is forced to obey a Witches' Council command that their Queen attend a meeting, on ABC-TV's "Bewitched" THURSDAY, JUNE 12.

In "It's So Nice to Have a Spouse Around the House", Samantha is urged by Endora, her mother, to attend the meeting. Endora demonstrates the consequences of disobedience by turning Darrin into a bronze statue, when Darrin refuses to give Samantha permission to attend. Samantha reluctantly calls her cousin, Serena, in as substitute housewife.

Elizabeth Montgomery stars in the dual role of Samantha and her look-alike cousin, Serena, and Dick York as Darrin, with Agnes Moorehead as Endora. Fifi D'Orsay plays the role of the innkeeper, Madame Wageir.

.....

Don Hollinger's stunning new secretary, Pat Crawford, is out to snare her boss, as is quite clear to Ann Marie, on ABC-TV's "That Girl," THURSDAY, JUNE 12.

In "Ann Versus Secretary," when Pat succeeds in getting Don and herself sent to Washington, D.C., on assignment, Ann heartbrokenly concludes that it is up to her to break off her romance with Hollinger.

Mrrlo Thomas stars as Ann Marie and Ted Bessell co-stars as Don Hollinger. Jennifer Douglas plays Pat Crawford.
